

The passing of Gugu Siziba is a terrible loss. My sincere condolences to his friends and family. Gugu presented several times with us at UWC - on two panels at SAALA conferences and once at a seminar in our Centre for Multilingualism and Diversities Research (CMDR). His papers were excellent, superbly theorised, carefully analysed, full of interesting insights, all beautifully presented in his understated, eloquent manner. Gugu was set to make a significant contribution to scholarship on migration, ethnicity, race and xenophobia. We are so sorry to hear this news.
